**Mental Health
and Wellbeing
Conference**
16/17 February 2022

The impact of Covid is still being felt by individuals, organisations and communities across the whole of Wales. And not just the physical effects; the consequences of living and working through a pandemic have also been significant.

The pandemic has pushed the wellbeing agenda to become one of the highest 'people priorities' for an organisation to address. So what changes do we need to make as employers to maximise wellbeing opportunities and mitigate the threats?

This conference will shine a spotlight on issues affecting our staff, tenants and society as a whole, and give delegates practical tools to take away and apply in their daily lives and work.

With international speakers, moving and powerful calls to action and compelling evidence of the importance of looking after wellbeing, this conference will make you consider the policies, support mechanisms and priorities placed on wellbeing in the workplace.

We'll look outside of the housing sector for answers and debate. We'll hear from WG and ACAS on what support we should be putting in place. We'll hear how Covid has impacted gender and ethnicity differently. And we'll find out secrets from the world's happiest country!

We can't wait to virtually welcome you to the conference in 2022!

DAY 1 | Wednesday 16th February 2022

9.00 - 9.45am	Networking and exhibition viewing - A chance to virtually network with delegates and exhibitors
9.45 - 10.00am	<p>Welcome and Introductions Andrew Tamplin, Canna Consulting @andrewcanna</p> <p>Andrew talks from the heart, he has lived and breathed the roles of senior leadership and has also battled (and is winning) a mental health challenge. Andrew had to make some challenging, and difficult personal life choices after suffering a mental breakdown. This life changing event gave Andrew the motivation to make the change. His recovery coincided and was hugely supported by being able to help others through coaching, mentoring and talking openly about his challenges. Today, Canna provides a suite of mentoring and coaching services, delivers mental health & wellbeing training for organisations and support leaders in their professional development. Andrew will set the scene for Day 1 of our conference, with his own thoughts and hopes for the conference.</p>
10.00 - 11.00am	<p>Breaking the Silence David Beeney @breaking_ts</p> <p>You just can't tell by looking at someone how they are feeling inside. Breakingthesilence.co.uk founder David Beeney enjoyed a successful 30-year career, but spent most of that time hiding his anxiety and panic attacks - until his life changed when he was asked to deliver a talk on mental health.</p> <p>David realised it's ok to not be ok. That you can inspire people when you show your vulnerability and that you need to have self compassion and be kinder to yourself. As leaders within our organisations, what can we learn from David's experience about mental health awareness in the workplace. How can we create stigma free environments? This will be a powerful, moving and inspiring session to start our conference.</p>
