"Are you being true and authentic to your potential position?" It's Not About The Coach

The Authenticity Experience

Hack #3 - INSIGHT

What value is important to you?

When did you first recognise this value?

When did you first take a stand for this value?

Hacking instructions

- 1) Choose one value this is important to you right now.
- 2) Cast your mind back to when you first recognised this value (likely to be in your early formative years).
- 3) Notice when you first expressed this value so that you and/or others noticed and benefitted.
