09:30 Tea, coffee and arrivals

10:00 Introductions

10:05 **Steve Curry, Valleys to Coast**, an update on V2C's recent work in exploring the potential for local energy supply and generation

10:30 **Andrew Padmore, Egnida**, how to make low carbon/fuel poverty solutions commercially and practically viable. This will be a best practice session that highlights some of the challenges to RSLs and also discusses some of the solutions that others are investigating or progressing. Andrew will highlight some examples from other sectors such as local authorities and the private sector. Please feel free to send in some examples of the challenges you face in these areas so Andrew can address them specifically in this session.

11:00 **John Littlewood, 'Feedback from Occupants in 'as Designed' Low-carbon Apartments, a Case Study in Swansea, UK'**

John will be representing both Cardiff Metropolitan University and Coastal Housing who John has been working with. John will present some of the results from an ERDF project with data from physical monitoring, occupant interviews and building design analysis of a low carbon apartment building case study in Swansea. Topics include, overheating and potential impacts upon occupant health. There is also a published paper that can be circulated for members of the group.

11:30 Short tea and coffee break

11:45 A chance for open discussions and updates from members (Shea to provide an update on the yammer energy group and discuss pre-payment meters)

12:15 **Dave Richards, SSE, ‘A market update including energy efficiency policy, fuel poverty policy, cavity wall extraction, the main priorities for the UK Government and more’**

12:45 **Owen Veldhuizen, Cartrefi Conwy**, green flag status (presenting via video conference in North Wales)
