Local Energy

Welsh Government overview

Jennifer Pride
Head of Renewable Energy
Welsh Government

The future is local.....

“From a consumer’s point of view, the solar on the rooftop is going to be the baseload. Centralised power stations will be increasingly used to provide peak demand.”

Steve Holliday, National Grid chief executive

The future is local.....

Natural Resources Department

GGW: Local Energy

“Small and medium renewable energy generators are connected within communities and businesses, and with the smarter use of technology and storage, reduce the need for major grid infrastructure”

GGW: Local Energy

“Long term fuel poverty is in decline, as we live in more energy efficient homes and people and communities have access to locally generated energy”

GGW: Local Energy

- Leading on local generation
- Removing barriers
- Supporting local action
- Access to finance

GGW: Local Energy

Leading on local generation

- Building Regulations for new build
- Supporting Bridgend in Smart Systems bid
- Energy from waste projects
- Planning Act, and renewable energy toolkit

GGW: Local Energy

Removing barriers

- NRW abstraction licensing
- Work with DNOs on grid connections
- Permitted development review
- Collective review to reduce EIA for small wind projects

GGW: Local Energy

Supporting local action

- Resource Efficient Wales
- Community Energy Wales
- Renewable Energy Support Service
- Community energy toolkit
- Marine Planning Portal

GGW: Local Energy Access to Finance

- REW opportunity reports
- Renewable Energy grants and loans
- Support for share offers
- ERDF funds for renewables and energy efficiency

UK Government subsidies

Environmental Programmes

Find out about the environmental programmes Ofgem [E-Serve](#) administer on behalf of government and how you might be able to participate.

We are experts in operational design and delivery excellence. For more information on our role see Ofgem [E-Serve](#).

Energy Company Obligation (ECO)

ECO is the government's domestic energy efficiency programme. It works alongside the Green Deal and provides, among other measures, insulation and

Domestic Renewable Heat Incentive (RHI)

The Domestic RHI is a government financial incentive to encourage a switch to renewable heating systems. It's a way to help the UK reduce carbon

Non-Domestic Renewable Heat Incentive (RHI)

The Non-Domestic Renewable Heat Incentive (RHI) is a government environmental programme that provides financial incentives to increase the
